Hi Frederik,

<br />Thanks for contacting us. We are still behind in the build schedule but are  
<br />working though Christmas now. We will have your boat out in Dec. Great you  
<br />are going to the worlds, Darren will set your boat up like a team boat. We  
<br />now have the new aero tramps, better foils, special team wand and a on the  
<br />fly height adjuster. (Be great if you could keep this to yourself as not  
<br />everyone gets this)

<br />Just so you know what the delay has been- we started off with resin infused  
<br />boats and scheduled on 2 a week, now we have changed to the fully vaccuum  
<br />bagged epoxy boats (better) and couldn't get to 2 a week, and got swamped  
<br />with orders and a huge que...bit of a snow ball effect we weren't expecting.

<br />Can you send me directly your delivery address and prefered airport for  
<br />pickup along with the best contact phone number for customs. I'll sort  
<br />Felix out for the final payment

<br />We are really sorry about the delay, its been really embarrassing but the  
<br />boats are better for it, and we have sorted out the issues we have had, to  
<br />make sure prolonged delays don't happen next year..

<br />Regards

<br />Holly

<br />
