Hi Frederik,

Thanks for contacting us. We are still behind in the build schedule but are

working though Christmas now. We will have your boat out in Dec. Great you

are going to the worlds, Darren will set your boat up like a team boat. We

now have the new aero tramps, better foils, special team wand and a on the

fly height adjuster. (Be great if you could keep this to yourself as not

everyone gets this)

Just so you know what the delay has been- we started off with resin infused

boats and scheduled on 2 a week, now we have changed to the fully vaccuum

bagged epoxy boats (better) and couldn't get to 2 a week, and got swamped

with orders and a huge que...bit of a snow ball effect we weren't expecting.

Can you send me directly your delivery address and prefered airport for

pickup along with the best contact phone number for customs. I'll sort

Felix out for the final payment

We are really sorry about the delay, its been really embarrassing but the

boats are better for it, and we have sorted out the issues we have had, to

make sure prolonged delays don't happen next year..

Regards

Holly
